PROFESSIONAL SUMMARY

Frontend Engineer with 4+ years of experience building scalable web applications using React, Next.js, TypeScript, and modern frontend architectures. Proven record of improving application performance, accessibility, SEO, and developer productivity through reusable component systems and optimized development workflows.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Responsive Design

Backend/API: Node.js, Express.js, REST APIs, Authentication, Third-party API Integration

DevOps/Cloud: Docker, GitHub Actions, CI/CD, Vercel, AWS

Testing/Quality: Jest, React Testing Library, Cypress, Accessibility, WCAG 2.1 AA, SEO, Performance Optimization

Tools: Git, GitHub, Figma, Jira, Agile/Scrum, Code Reviews

PROFESSIONAL EXPERIENCE

Senior Frontend Engineer | ABC Technologies | Jan 2022 - Present

- Developed and maintained large-scale React and Next.js applications serving 500,000+ monthly users across web and mobile-responsive experiences.
- Built reusable TypeScript UI component libraries and design system patterns, reducing feature development time by 35%.
- Integrated REST APIs and third-party services across 15+ production features while improving frontend reliability and error handling.
- Improved Lighthouse performance score from 68 to 96 through bundle optimization, image loading improvements, caching, and Core Web Vitals fixes.
- Optimized SEO metadata, structured data, and page rendering strategy, increasing organic traffic by 40%.
- Implemented accessibility improvements aligned with WCAG 2.1 AA standards, including keyboard navigation, semantic HTML, and ARIA patterns.
- Automated deployment workflows using GitHub Actions, Docker, and Vercel, reducing manual release effort by 50%.
- Collaborated with product managers, designers, backend engineers, and QA in Agile sprints; reviewed code and mentored 5 junior developers.

Frontend Engineer | XYZ Software | Jun 2020 - Dec 2021

- Built responsive React applications and reusable frontend modules used by enterprise clients in finance and operations workflows.
- Developed strongly typed TypeScript components and form flows, reducing production UI defects by 28%.
- Integrated REST APIs, authentication flows, and dashboard data visualizations for customer-facing product features.
- Improved page load speed by 45% through lazy loading, code splitting, and performance profiling.
- Wrote Jest, React Testing Library, and Cypress tests to improve regression coverage across critical user journeys.
- Participated in sprint planning, technical architecture discussions, code reviews, and release readiness reviews.

PROJECTS

Design System Platform | React, Next.js, TypeScript, Storybook

- Created a reusable design system with 120+ accessible components, reducing UI inconsistencies by 70%.
- Added documentation, usage examples, and visual regression testing to improve developer adoption across teams.

E-Commerce Optimization Platform | Next.js, React, Docker, AWS

- Built an SEO-focused storefront architecture and improved Core Web Vitals by 55%.
- Improved conversion rate by 18% through performance improvements, responsive checkout flows, and accessibility fixes.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science | Punjab Engineering College | 2020 - 2024 | CGPA: 8.9/10

CERTIFICATIONS & ACHIEVEMENTS

- AWS Certified Cloud Practitioner; Meta Front-End Developer Professional Certificate.
- Top 5% performer among 120 engineers; reduced production incidents by 35% through review quality and frontend reliability improvements.
- Led migration from legacy frontend architecture to Next.js, improving maintainability and deployment speed.
